Settings Icon on
HomePage

A screenshot of the first version of the Settings page overlay. The background is a light beige marble texture. The word "SETTINGS" is written in a large, bold, black, handwritten-style font at the top center. Below it, the labels "First name:", "Last name:", "Email:", and "Password:" are written in a smaller, italicized, black, handwritten-style font. Each label is followed by a white input field with a thin grey border. The "First name" field contains the text "John", and the "Last name" field contains "Smith". The "Email" field contains the placeholder text "Enter Email", and the "Password" field contains "Enter Password". Below the "Password" field is a dark grey button with the text "THEMES" in white, followed by a small white downward-pointing triangle. At the bottom left of the overlay is a blue button with the text "Update" in white. At the bottom right is a red button with the text "Return" in white.
